

diabetic footwear

# PRODUCT CATALOG DIABETIC FOOTWEAR

## Onzen Diabetic Footwear

This footwear is a Class I Medical Device, in accordance with EU Medical Device Regulation 2017/745, Annex VIII.

# About Us

Moutinho Ribeiro da Silva is a Portuguese company dedicated to manufacturing high-quality footwear, with a special focus on three key areas: casual fashion, professional footwear, and orthopedic and diabetic footwear.

Our story began with a clear purpose: to respond to real and specific needs that, for a long time, had not found effective solutions in the Portuguese market. It was with this vision that the **OnZen** brand was born and formalized, a brand committed to comfort, health, and well-being.

*Over the years, we have built a solid reputation in the industry, combining technological innovation, artisanal production, and an unwavering commitment to the comfort and health of our customers. Each pair of shoes reflects our accumulated experience, attention to detail, and respect for the individual needs of those who wear them.*

**We strictly comply with all industry standards and regulations, including NP EN ISO 9001 certification, ensuring high standards of reliability and performance in all products.**

# About our products

## REMOVABLE INSOLE

Can be removed to help with hygiene or to put your custom insole.

## RECOVERY

Keeps the insole in shape for longer.

## BREATHABLE INSOLE

Natural airflow to aid in long walks.

## IMPACT ABSORPTION

Effective shock absorption when walking for added comfort.

## LIGHTWEIGHT AND RESISTANT SOLE

Sustainable PU material: For guaranteed lightness and resistance.

## NON-SLIP

Safety at every step.

## SOLE WITH ROCKER

Rocker sole to aid natural walking movement.

## WIDE LONGITUDINAL OPENING

Makes it easier to put on, even for sensitive or swollen feet.

## ANTI-ALLERGY LINING

Crome free lining.

## BREATHABLE LINING

Natural breathing like your skin.

## SOFT LINING

Lining fully covered with foam.

## BEIGE LINING

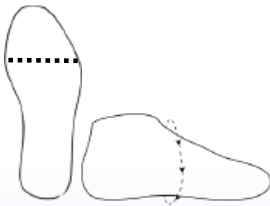

Light colored lining that allows you to identify changes or signs of wounds.
