## Onzen Hospital Footwear

“Comfort everywhere and for everyone”

Manufacturers of innovative footwear for professionals and those who require special care from the ground up. Comfort and quality of life are our main objectives.

# About Us

Moutinho Ribeiro da Silva is a Portuguese company dedicated to manufacturing high-quality footwear, with a special focus on three key areas: casual fashion, professional footwear, and orthopedic and diabetic footwear.

Our story began with a clear purpose: to respond to real and specific needs that, for a long time, had not found effective solutions in the Portuguese market. It was with this vision that the **OnZen** brand was born and formalized, a brand committed to comfort, health, and well-being.

*Over the years, we have built a solid reputation in the industry, combining technological innovation, artisanal production, and an unwavering commitment to the comfort and health of our customers. Each pair of shoes reflects our accumulated experience, attention to detail, and respect for the individual needs of those who wear them.*

**We strictly comply with all industry standards and regulations, including NP EN ISO 9001 certification, ensuring high standards of reliability and performance in all products.**

# About our products

## Get to know hospital footwear

### Bubble

Ideal for those who work in very rigorous and demanding environments in terms of sterilization. They allow sterilization in autoclave and washing in the machine up to 90°C.

### EVA

Ultra-light, anatomical, anti-static and perforated, certified EVA clogs that allow the foot to breathe naturally. Ideal for those who spend a lot of time on their feet.

### Candy and Sophia

Extra soft clogs with or without elastic in the vamp to better adapt to the foot. Anti-static and non-slip PVC sole, ideal for those who privilege comfort.

# Extra Soft

## Candy

The Candy clog has elastic at the upper to better fit the foot, ideal for voluminous feet.

## Sophia

The Sophia clog has a rib on the upper that adds comfort, ideal for less voluminous feet.

Upper in washable microfiber. Lining and insole covered with a microfiber thermoregulating effect that offers maximum moisture absorption for extra comfort! The anti-static and non-slip PVC sole offers greater durability, as it is resistant to various detergents. Includes microfiber covered comfort insole. Unisex clog.
